

# I make observations.

I taste...  
I hear...  
I smell...

I see...  
I feel...

# I ask questions.

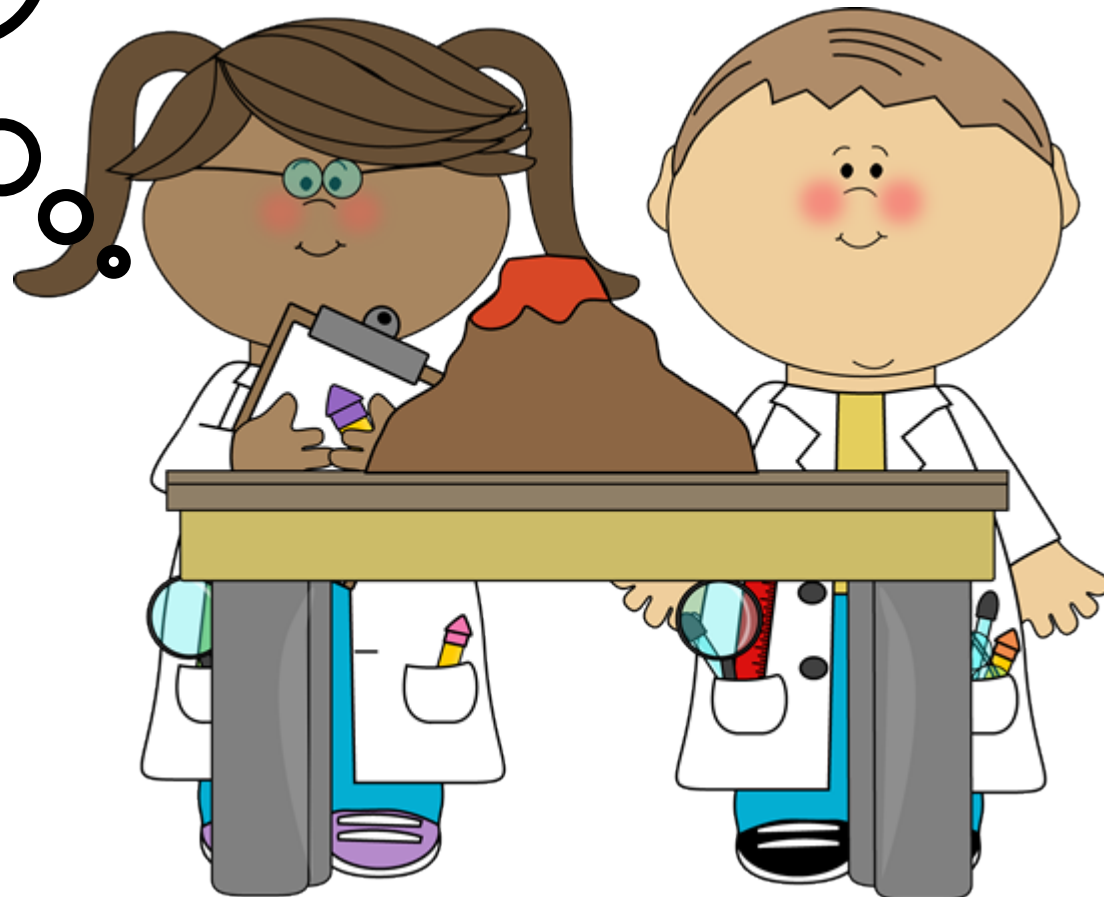

**I make hypothesis or predictions.**

**I experiment to test my hypothesis  
or predictions.**

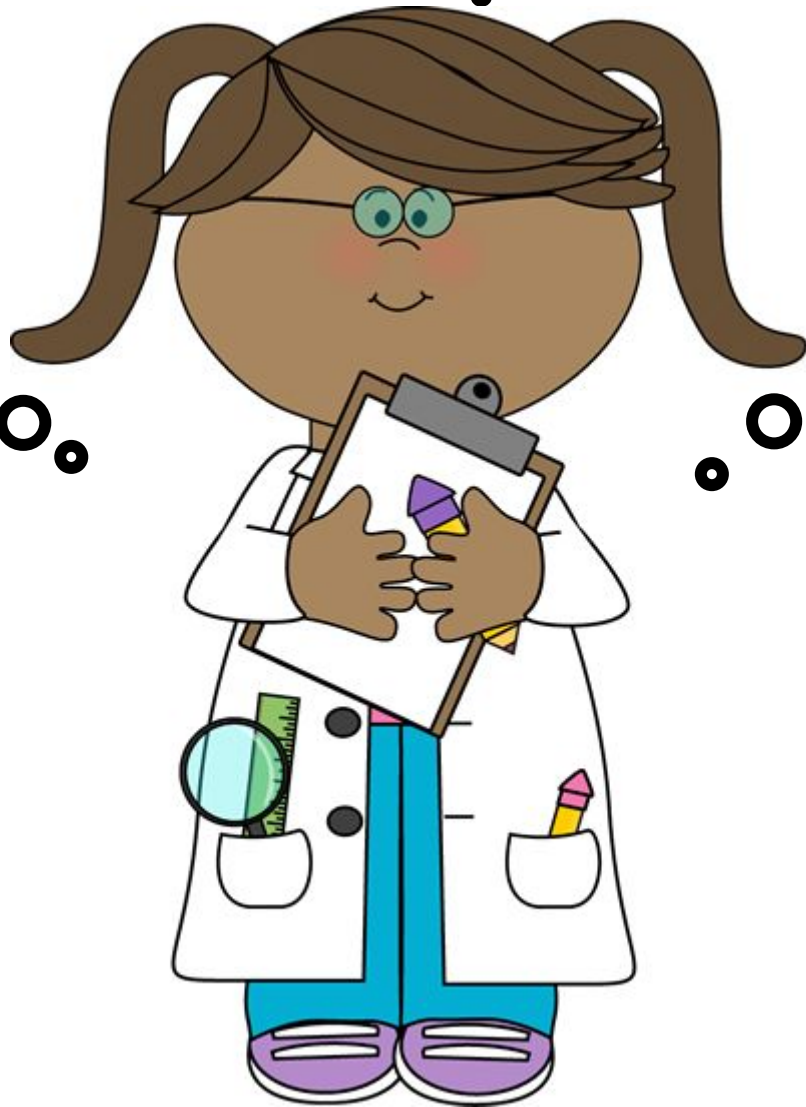

What  
should we  
try?

# I record my results.

I am going  
to draw  
about...

I am going  
to write  
about...

# I share my results.

What happened?

What did you find?
