

Meet Lake & Pond

Our Dumpy Tree Frogs

Fun Facts:

- Dumpy Tree Frogs are docile amphibians.
- They are native to Australia and New Guinea.
- They are nocturnal or most active at night.
- Dumpy Tree Frogs are carnivores meaning they eat live food like crickets and super worms.
- Sometimes they are green and sometimes they are brown. They camouflage themselves very well.
- They are not great swimmers but enjoy soaking in water.
- They shed their skin.
- Dumpy Tree Frogs have sticky pads, like suction cups, on their toes that help them climb.

Activities:

Draw a Dumpy Tree Frog:

- Draw a picture of Pond or Lake.
- Write a sentence describing what you saw in the video.
- Take a picture of your story and upload it to the comments section of the video on Facebook with your parent's permission.

Carnivore, Omnivore, Herbivore Sort:

- Print the attached pages and cut out sorting pieces.
- Sort the food under the animal based on whether it is a carnivore, herbivore or omnivore.

Writing a list:

- Imagine you have a Dumpy Tree Frog. What would you feed your frog? Where would it live? How would you take care of your tree frog?
- Illustrate your list.

Nature Walk

- Go on a nature walk.
- Make a list of plants and animals you see and hear.
- Illustrate your list.

Carnivore

Herbivore

Omnivore

Answer Key:

Dumpy Tree Frog	Rabbit	Bearded Dragon
Carnivore	Herbivore	Omnivore
cricket	greens	cricket
Earth worms	carrots	Super worms
Super worms	hay	greens
