Exploring Basic Needs & Lifecycles

Lifecycle Fact Review:

- Most animals and plants have four stages of a life cycle that they go through.
 - Birth
 - Growth
 - Reproduction
 - Death
- Most baby animals are similar to their mother.
- Some animals are born live and others are born inside of eggs.

NEEDS OF LIVING THINGS

ALL LIVING THINGS NEED:

Basic Needs Fact Review:

- Plants and animals have many of the same basic needs:
 - Animals Need: Air, water, food, shelter
 - Plants Need: Air, water, nutrients, light, space

Activities:

Are you my mother?

- Print the attached pages and cut sorting pieces.
- Match the plants and animals with their mom.

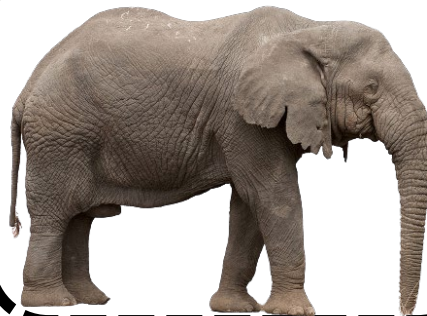

Write a Story:

- With adult assistance, google your favorite animal. Watch a video or look at pictures that tell about their lifecycle.
- Draw a picture of their stages of the cycle.
- Write or dictate a sentence describing their life cycle.

Mother Baby Match

Directions:

Cut out the mother and baby cards.
Match the mother plant or animal with its
baby. Lay the matches out in the spaces
below. After all matches are made, glue
them in place.
